

## NZAL: Pricing and Loss Factors

**Distributor:** NZAL - New Zealand Airways Limited

**Valid from** 01/05/2023

**Updated:** 26/04/2023

The Embedded Network Company currently manages **10** embedded networks under the NZAL participant code for its property group client New Zealand Airways Ltd. These Embedded Networks (EN's) span **3** Local Area Networks. We endeavour to mirror the pricing of local networks where pricing to the ICP is applicable. Loss factors mirror the local network to align across all ICP and GXP based local networks.

All prices are exclusive of GST and no further discount applies.

PNZALP5	Business - GTX1500	PNZALP5-24UC		Variable Charge - Uncontrolled	0.0038	\$/kWh
PNZALP5	Business - GTX1500	PNZALP5-DAMD	CKHKDAMD300	Demand Charge	3.4061	\$/kVA/Month

**CKHKDAMD300**

For general low voltage connection and general transformer connection consumers with a capacity greater than 300kVA but less than or equal to 1500kVA, demand (DAMD) is defined as the maximum demand during the month, where the kVA demand is twice the maximum kVAh half hourly reading during the month to which the charges apply.

## NZAL-VECT – Vector

**WAIKCAPY**

Is applied for the customer nominated capacity (in kVA) per day as per EA registry. Customers can request a change once per annum to their nominated capacity.

**WAIKEDMD**

Will be applied to anytime peak demand in excess of the customer nominated capacity in the billable period.

**WAIKDASM**

Is applied based on the average of the customers six highest half hour periods (kVA) during WEL's peak time periods each summer month. Summer is defined as the period from 1 October to 30 April (inclusive). Peak times are between 7 am to 9.30 am and 5.30 pm and 8 pm on weekdays excluding public holidays.

**WAIKDAWM**

Is applied based on the average of the customers six highest half hour periods (kVA) during WEL's peak time periods each winter month. Winter is defined as the period from 1 May to 30 September (inclusive). Peak times are between 7 am to 9.30 am and 5.30 pm and 8 pm on weekdays excluding public holidays.

**WAIKPWRF**

Applies to large and asset specific customers only and is a price on the volume of reactive energy, measured as kilovolt amps reactive hour (kVARh), is used when the power factor is less than 0.95 within each half hour time period. Chargeable kVARh is determined by calculating the maximum of 0 or kVARh - kWh x 0.328684 (Note: 0.328684 relates to the cosine of the angle between kW and kVA when power factor = 0.95).

**WAIKOFPK**

All days between 22:00 and 07:00.

**WAIKSHDR**

Business days between 09:30 to 17:30 and 20:00 to 22:00. Weekends and public holidays between 07:00-22:00.

**WAIKPEAK**

Business days excluding public holidays between 07:00 to 09:30 and 17:30 to 20:00.
